Michael R. Schramm	February 22, 2003
Applicant	Date
<i>Michael R. Schramm</i>	
Signature	

Sir:

Declarant, Michael R. Schramm, an individual residing at 350 West 2000 South Perry, Utah 84302, declares:

I, Michael R. Schramm, am a citizen of the United States of America.

I, Michael R. Schramm, am the owner of the entire right, title and interest in and to the above identified U.S. Patent;

I, Michael R. Schramm, am the original, first, and sole inventor of the subject matter which is claimed and for which a reissue patent is sought on the invention entitled "Fluid Powered Bubble Machine With Spill-Proof Capability," the specification of which is attached hereto.

I have reviewed and understand the contents of the above identified specification, including the claims and including all amendments. Applicant believes the original patent to be partly inoperative or invalid by reason of the patentee claiming more or less than patentee had the right to claim in the patent. In particular, an error that this reissue application seeks to correct is the scope

of claim 8. Specifically in view of the discovery of US patent 5,297,979, Applicant believes the language of claim 8,"*A non-cavitation bubble creation apparatus comprising a hydraulic motor and a bubble creation device wherein said hydraulic motor is adapted to actuate said bubble creation device, said apparatus further including at least one exit port for the emission of hydraulic fluid*", in it's entirety, to be excessively broad. Accordingly, Applicant has added new limitations to the language of claim 8 to cause claim 8 to be narrowed and thus rendered operative.

I, Michael R. Schramm, do hereby aver that all errors being corrected in the reissue application up to the time of filing of both of the oath/declaration arose without any deceptive intent on the part of the Applicant.

I, Michael R. Schramm, acknowledge the duty to disclose to the Patent and Trademark Office all information known to be material to patentability of the subject matter claimed in this application, as "materiality" is defined in Title 37, Code of Federal Regulations, § 1.56.

I, Michael R. Schramm, do hereby declare that all statements made of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Pursuant to 37 C.F.R. § 3.73, I hereby certify that I have never transferred any ownership interest in and to the above captioned patent, and that title remains in my name.

Please address all correspondence and telephone calls to the undersigned, Michael R. Schramm at 350 West 2000 South, Perry, UT 84302, Hm (435) 734-2599, Wk (801) 625-9268.

DATE: February 22, 2003

Respectfully submitted,

Michael R. Schramm
